SUBJECT: Draft Remedial Investigation Report for Fike Chemical
Site Prepared by the NUS Corporation

FROM: Darius Ostrauskas, Remedial Project Manager *TO*

TO: File

A Draft Remedial Investigation Report for the Fike Chemical Site prepared for the EPA by the NUS Corporation dated July 1990 has been included in the Administrative Record of Operable Unit Three at the subject site.

Since this report has not incorporated any comments by the EPA and is not considered a final report by the EPA, the contents of the report does not necessarily reflect determinations or conclusions of the EPA.

Please note that this report was prepared and submitted to the EPA for review by the NUS Corporation, a subsidiary of the Halliburton Corporation. The Halliburton Corporation has been determined by the EPA to be a Potentially Responsible Party in the case of Fike Chemical. As a result, the subject report will be finalized by the EPA with the assistance of another contractor.
